Frequently Asked Questions

Why does Ronald McDonald House Charities collect pop tabs? The money earned from recyclable aluminum tabs lets us keep families close to their children being treated in our local medical hospitals.

How much do you get for each pound of pop tabs? Ronald McDonald House® Charities of Central Illinois gets the going rate for pop tabs, which varies based on the demand for aluminum.

Why do you only collect the tabs from cans? Although the entire aluminum can is valuable, the tab itself is much cleaner and easier to collect in large quantities. The tab of a standard soda can is made of high-quality aluminum. By itself, it doesn't mean much, but when we pull together, pop tabs add up and become a valuable donation to Ronald McDonald House® Charities of Central Illinois.

Who can participate in the pop tab program? Anyone is welcome and encouraged to participate! A pop tab collection is a terrific program for schools and other youth groups to get involved and make a contribution in their community. Offices, church groups, hospitals, grocery stores, and other clubs also find this program to be ideal and easy to organize.

FUN FACT: Each year, Ronald McDonald House® Charities of Central Illinois collects approximately 17 million tabs.
